

Hybond®

PRODUCT DATA SHEET

CHOICE BRANDS ADHESIVES, 666 REDNA TERRACE #500, CINCINNATI, OH 45215 513-772-1234

Product Number: 1000

Descriptions: N/F SOLVENT, CLEANER, REDUCER

Benefits:

Fast Drying
Non-Ozone Depleting

Typical Physical Properties:

Base: Methylene Chloride
Color: Water Clear
Viscosity: Like Water

Application:

A clear non-flammable solvent recommended for thinning and cleaning most nonflammable adhesives. Can also be used for cleaning brushes, rollers, equipment parts and for flushing through spray lines and spray guns.

In thinning adhesive, add a small quantity of solvent while thoroughly mixing until the desired consistency is reached. Be careful not to add too much solvent and/or add solvent too fast.

In cleaning adhesive off substrates, DO NOT flood the area with solvent as it can work into seams and soften the adhesive and cause delaminating. Use a cloth that is saturated with solvent, but not dripping. Keep the solvent exposure to edges and seams of the lamination at a minimum to avoid softening the bond line.

Storage Conditions:

Keep container closed tightly when not in use.
Do not store in direct sunlight.

Please refer to the Material Safety Data Sheet for further safety information.
