### OUR TURN-KEY RANGE HOOD SYSTEM... SIMPLE AND COMPLETE!

You've come to know Omega National Products as a preferred source for all types of high quality wood kitchen cabinet accessories, including a growing selection of wood range hoods and ventilation.

Because of their popularity, we elected to put this exciting product offering into a new Wood Range Hood catalog – complete with designs from traditional to contemporary styling. But more importantly, we'd like you to be aware of just how simple, complete and straightforward this program has become.

**First and foremost: We are not providing you with just a wood range hood – we are providing you with a completely turn-key wood range hood system of the highest quality.**

*To define what we mean by turn-key, consider what all of our wall-mount hoods come to you with:*

1. Wood range hood and choice of chimney sizes (if applicable)
2. Silver metallic steel liner – with a cut-out that will house any of our Broan ventilators
3. All applicable mounting hardware – including every nut and bolt you'll need
4. All of the above packed in a re-shippable carton – once you've applied your finish

And to define what we mean by system, consider the unique patent-pending mounting system our engineers developed to help make installation a breeze. To better see just how simple this is, look to the next page for an overview. This unique hanging design allows the entire system to be installed by one person. All of the pieces and parts needed to mount our hoods come with each hood!

To complete the system, and to further add to its utter simplicity, keep in mind that whatever hood style you order – regardless of size – the included liner will house any of our Broan ventilators. And you have several CFM choices: 250 CFM, 390 CFM, 500 CFM, and even 1,100 and 1,500 CFM. (The option for more commercial-style ventilation is also available - see [omeganationalproducts.com](http://omeganationalproducts.com) for more on this.)

**And a word about our quality:** Omega National Products' range hoods are offered by some of the most respected names in kitchen cabinetry – with some of the most demanding quality standards. You can count on getting the quality you expect. It's that simple. And all our wood hoods are produced right here in America at our facility in Elkhart, IN.

The bottom line is you get everything you need with the Omega National Products wood range hood system - *from start to finish!*

**\*Ductless Kit not recommended for use with 30" hood chimney.**

## EASY TO INSTALL

**Step 1:**  
Screw mounting plate to wall

**Step 2:**  
Assemble blower unit (sold separately) to metal liner

**Step 3:**  
Fasten metal mounting brackets to liner

**Step 4:**  
Hang the liner/bracket assembly on the mounting plate (make all electrical and ventilation connections at this point)

**Step 5:**  
Slip the wood range hood on top of the mounting plate

**Step 6:**  
Fasten wood range hood to liner with (4) screws

**Step 7:**  
If using a chimney (sold separately) mount blocks to wall

**Step 8:**  
Snap chimney in place
